

SPORTS MEDICINE, INC.

Policy: Durable Medical Equipment Loans/ Returns

Durable Medical Equipment and supplies **cannot be returned** unless there is a defect in the supply itself.

Items such as S-I locks, Lumbar or cervical rolls *are in direct contact with patient skin*. Basic hygiene issues dictate that these supplies should not be redistributed.

Items such as theraband, theraputty and physio balls may lose their elasticity and redistribution nullifies product liability.

Exceptions: TENS and Cervical Traction units. Only the electrodes are in contact with the patient and electrodes can be replaced. See Tens Unit Policy re: loaners
