

SPORTS MEDICINE, INC.

Procedure: Cervical Traction Unit Rental Program

OPT offers appropriate patients the opportunity to rent a home cervical traction unit for the cost of \$25.00 per week.

Before this occurs, the patient will be instructed by their PT/PTA team in proper set up, safety, and treatment parameters. Informed consent will be obtained. Patients must demonstrate safe use of the device, knowledge of the treatment parameters and sign a traction rental agreement (see enclosed) .

If the patient shows improvement in objective measures and has a need for long term use of the device, the therapist may pursue the purchase of a home unit through the patient's insurance company and a contracted D.M.E. provider. A physician prescription for the device is obtained.

Zynek, Provider Representative Sonya Osachulk 508-797-2089, is our current preferred provider.
